The LingoPen™ was designed with the language learner in mind. This approach emphasizes the need to make content comprehensible while developing academic language skills for students acquiring English as a second language. Using the pen in remote learning or daily classes helps integrate academic language for students and promotes an inclusive learning opportunity that helps students participate with their peers, helping to lower the affective filter while increasing literacy skills.

FREE TRIALS AVAILABLE!

Instant word translation

More than 20 built-in dictionaries

Complies with social distancing requirements

Supports language learners

Great for EAL students

Reads text aloud

Scan with this state-of-the-art device to look-up and translate 8 different languages in an instant. The LingoPen™ has a text-to-speech function to further language retention. Promotes independent learning with a high-quality natural text-to-speech voice, and multiple dictionaries with word-to-word translations.

The LingoPen™ supports:

Arabic*, Chinese, English, French, German, Italian, Russian, & Spanish

**Only one-way translation: English to Arabic*

English

French

German

Spanish

Italian

Russian

Chinese

English

Arabic

“The audio functionality is beneficial for all EAL learners; the importance of students hearing their target language modeled is a fundamental principle of good practice for supporting students who are learning English as an additional language.” - Hampshire EMTAS Teacher Adviser
