Set Up Your Pen to Support Exam Use

- If your pen has your name on it and you know it has been set up for you no worries. You are good to pick up your pen and use it.
- Are you using **THIS** ExamReader Pen for the first time?
Check the following things:
- Have you run the Wizard? See Picture 5. If not run it now.
Make sure you correctly set up for Right or Left-Handed.
- You will want the pen turned on and ready to use for the whole exam.
Go to Settings - Auto Shut Down - Choose 2 hours
The pen will always be ready to use.
- Do you normally use word pause or read delay?
You can find these settings in the Quick Set Menu
Choose Text Reader and look for the flashing cursor
Now press the Quick Set Menu Button for more options.
